Our young adult residents

Six wonderful young adults live in our permanent care at 'Little John's House'. A loving and very capable fully Romanian staff ensure that their needs are met 24 hours a day. The young adults are placed in our care through the legal ruling of the Romanian Child Protection Committee and their cases are reviewed annually. Links have been formed with the young adults' natural parents where appropriate and we endevour to maintain contact as frequently as possible.

Click on the links to the left to find out more about our young adults (permission for any images used of the children has been granted by the parents or legal guardians. There can be no use of any of these images without it).

The House and barn

The house and barn have undergone substantial renovation since they were purchased. The young adults eat, play and sleep in the house and the barn is predominantly used for summer school. For more photos of the house and barn go to the 'photo tour' link on the left.
